

PlanGrid Professional Pitch Document

Executive Summary

PlanGrid is a construction software that helps contractors and owners in the field collaborate on construction documents, plans, and markups.

The Problem

The construction industry has long relied on outdated, paper-based processes for managing plans, documents, and on-site collaboration. This results in inefficiencies, miscommunication, project delays, and higher costs. The lack of real-time access to accurate construction information hinders productivity and increases risk across all stakeholders.

Our Solution

PlanGrid revolutionizes construction project management by providing a mobile-first software solution that allows contractors, owners, and teams in the field to collaborate seamlessly on construction documents, plans, and markups. By digitizing the process, PlanGrid reduces errors, improves communication, and accelerates project delivery.

Market Opportunity

The global construction industry is valued at trillions of dollars, yet digital adoption has lagged behind. With increasing demand for efficiency, real-time data access, and mobile collaboration tools, PlanGrid is positioned at the intersection of construction and software. The market for construction management software continues to grow, presenting significant opportunities for expansion.

Company Overview

Founded in 2011 and headquartered in San Francisco, PlanGrid rapidly gained traction among contractors and construction professionals. Its intuitive mobile application and robust collaboration features led to widespread adoption, making it one of the most trusted platforms in the construction tech space.

Founded: 2011

Headquarters: San Francisco, California, United States

Industry Sectors: Construction, Construction Management, Mobile Application, Software

Status: Acquired (Acquired by Autodesk)

Finance Overview

Total Funding Raised: \$69M

Round Type	Money Raised	Date
Series B	\$18M	September 9, 2014
Series A	\$4M	January 1, 2013
Seed Round	\$1.1M	August 1, 2012

Series C	\$40M	December 15, 2015
Venture - Series Unknown	\$5.9M	July 27, 2012

Investor Highlights

PlanGrid attracted investment from some of the most reputable names in venture capital and technology innovation, underscoring market confidence in its vision:

- Sequoia Capital
- Tenaya Capital
- Northgate Capital
- 500 Startups
- Felicis Ventures
- Y Combinator
- Navitas Capital
- GV (formerly Google Ventures)
- BoxGroup
- AngelPad
- TriplePoint Capital

Conclusion

PlanGrid's journey demonstrates the power of solving industry-wide inefficiencies with innovative technology. Backed by top-tier investors and validated through Autodesk's acquisition, PlanGrid's impact continues to shape the construction technology landscape. Its story is a testament to how technology can redefine traditional industries and create lasting value.
